BALANCE AVAILABLE FOR FAMILY SUPPORT

Enter the appropriate residual income amount from the following tables in the *Guideline* field. Residual income is the amount of net income remaining (after deduction of debts, obligations and monthly shelter expenses) to cover family living expenses such as food, health care, clothing, and gasoline.

Residual Income Worksheet

SPECIAL INSTRUCTIONS FOR USING TABLES

Count all members of the household (without regard to the nature of the relationship) when determining “family size” including but not limited to:

- An applicant’s spouse who is not joining in title or on the note, and
- Any other individuals who depend on the applicant for support. For example, children from a spouse’s prior marriage who are not the applicant’s legal dependents

EXCEPTION

The lender may omit any individuals from “family size” who are fully supported from a source of verified income which, for whatever reason, is not included in effective income in the loan analysis. For example:

- A spouse not obligated on the note who has stable and reliable income sufficient to support his or her living expenses, or
- A child for whom sufficient foster care payments or child support is received regularly

A key to the geographic regions is listed in the following tables:
